In response to the requests and interest from EPF members to work in a more concerted way on Health Technology Assessment

Your input needed! Have your say on how results of clinical trials should be communicated to patients! (DEADLINE: 22

2015 Members in the spotlight

MEMBERS IN THE SPOTLIGHT

OUR MEMBERS IN THE SPOTLIGHT: EFA

Our membership is our compass. We are delighted to feature one of our 64 member organisation every month on our blog. This time, we interviewed Isabel Proano of the European Federation of Allergy and Airways Diseases Patients' Associations (EFA), who provides an overview of her organisation in five short answers.

CELEBRATING THE INTERNATIONAL PARKINSON'S DAY!

Parkinson'sLife

Parkinson's is a progressive, chronic and complex neurodegenerative disease that has no cure. It affects all aspects of daily living and is the most common neurodegenerative disease after Alzheimer's. The effects of Parkinson's invariably involve the physical, cognitive and psychological domains, and impact across nearly every cultural, social and economic boundary.
