

Medicon Village

**To create value
for people's health and
well-being**

Ursula Hultkvist Bengtsson
PhD, Associate Professor
Executive Vice President, MV AB

From bad to good...

2 March 2010

- AstraZeneca will move to Mölndal – staff meeting – 900 people to lose their jobs

2 March 2010

- Allan Larsson appointed chief negotiator and to develop a Life Science concept by FIRS (Forsknings- och Innovationsrådet i Skåne = Research and Innovation Council Skåne)

14 January 2011

- Mats Paulsson's Foundation announced. 100 milj SEK donated and surplus reinvested into research and innovation.

10 January 2012

- Medicon Village being launched

OUR VISION

Medicon Village should be a world class actor within life science.

Reason to be for Medicon Village

Quotes by founder family's representative, Fredrik Paulsson:

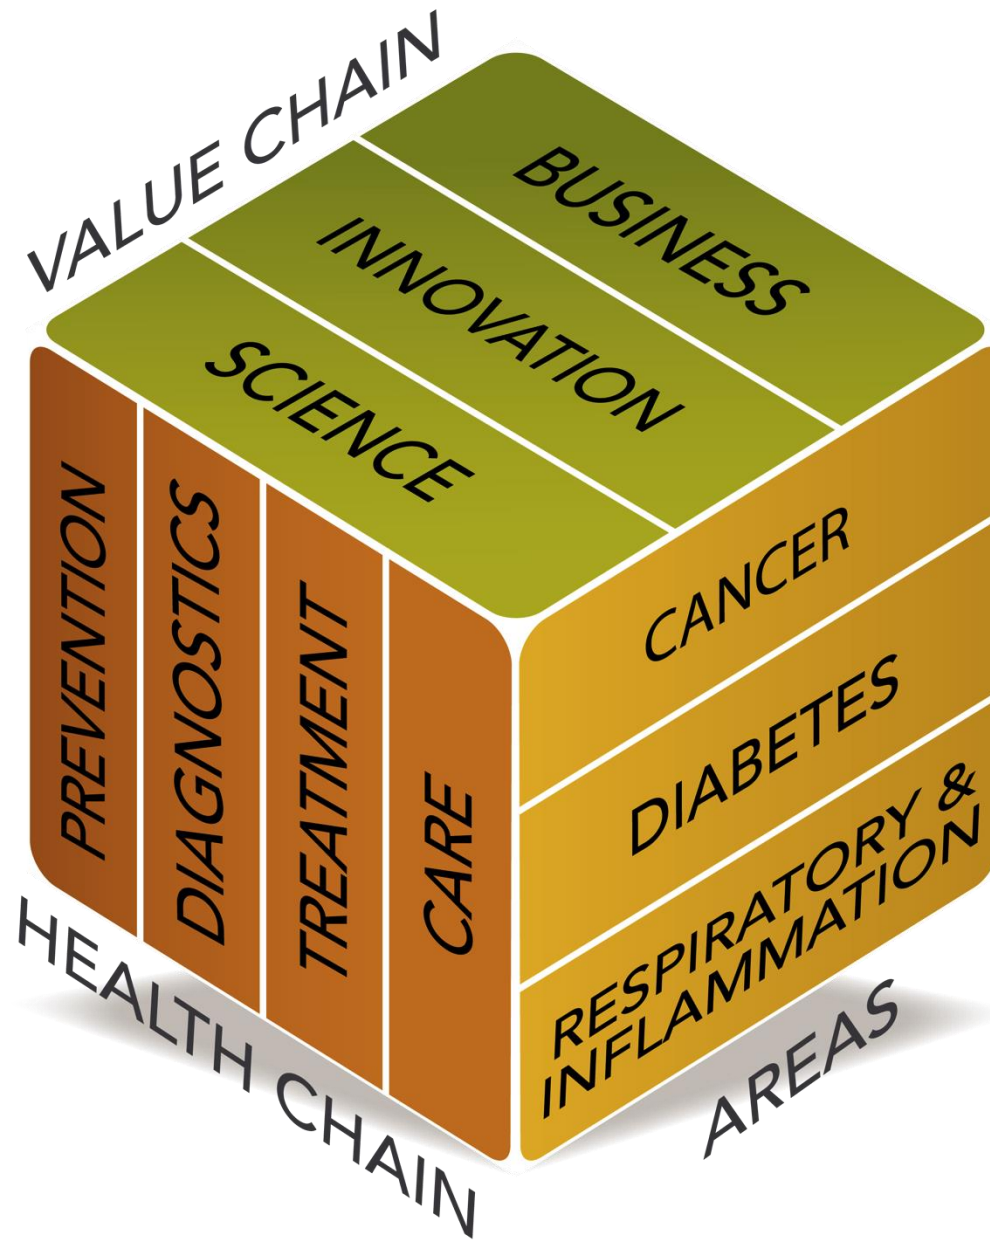

” **Make a difference!** - The possibility to create as much research as possible involving people with knowledge and passion.

Long term engagement – the Paulsson family are behind the foundation for generations.

Quality in what you do - but be cost effective

Work with your heart! ”

ALREADY
MOVED IN

”

Coming together is a beginning
Keeping together is progress
Working together is **success**

”

Henry Ford

Mission of Medicon Village's future healthcare

What?

- Focus on understanding cancerbiology, discover new ways to predict, diagnose and treat most forms of cancer and by this improve quality of life for cancer patients today and in the future.

How?

- Treatment and care with compassion and highest scientific standards, to an affordable cost, through collaboration between clinical praxis, education and research.

**Love and compassion
are necessities, not
luxuries. Without them
humanity cannot
survive.**

Dalai Lama

The spiritual head of Tibetan Buddhism
