OVERVIEW OF EPF PROJECTS AND THE EPF CAPACITY BUILDING PROGRAMME

Walter Atzori Cristina Padeanu Kaisa Immonen-Charalambous Valentina Strammiello

19/05/2015 Brussels, EPF 2015 AGM

A STRONG PATIENTS' VOICE TO DRIVE BETTER HEALTH IN EUROPE

Launched in 2012 to strengthen the capacity of both nationaland European-level Patient Organisations in order to:

- 1. Enable them to be more effective in achieving their mission and goals
- 2. Strengthen their governance and representativeness
- 3. Improve the involvement of members and strengthen their ownership of the organisation
- 4. Improve their cooperation with and involvement in EPF to maximise membership gains

<u>66</u> A STRONG PATIENTS' VOICE TO DRIVE BETTER HEALTH IN EUROPE

Focus for 2015:

- Evaluation of the 2012-2014 programme
- National Pillar:
 - Training on fundraising in Romania, Hungary, and Slovakia
 - Training on Communication in Bulgaria
 - Strategic and Operational Planning in Cyprus with the national federation
 - Preparatory work in **Poland**

European Pillar:

• Module on strategic communication

"This is where the idea for the new EHR starts getting a little complicated."

F A STRONG PATIENTS' VOICE TO DRIVE BETTER HEALTH IN EUROPE

SmartCare: Integrated Care

- European pilot project on **integrated Health and Social Care**
- Focus on **patients aged over 65**
- Project's main objective is to define:
 - comprehensive set of integration building blocks independent of health/social system
 - A common set of standard functional specifications for an open ICT platform
- Two pathways: long term and short-term care after hospital dismissal
- EPF role in the Advisory Board contributing to the assessment of patient perspective and horizontal advisory role

Background information:

- Joint Action is co-funded by the European Commission within the Public Health Programme.
- 1 April 2012 31 March 2015, by 31 March 2016, "no cost" extension granted.
- <u>Main objective</u>: to support the implementation of the Council Recommendation on Patient Safety (2009).
- Partners: institutional partners from

the Members States and Norway,

European and international stakeholders.

- EPF is an associate partner
- <u>www.pasq.eu</u>

🕻 A STRONG PATIENTS' VOICE TO DRIVE BETTER HEALTH IN EUROPE 🦻

Main achievements by 31 March 2015:

- **146 Good Organizational Practices** on patient safety and quality of care submitted and evaluated
- **504 Patient Safety Practices** collected and evaluated; **130** classified as transferable
 - Patient involvement and patient empowerment were among the criteria for evaluation
- Safe Clinical Practices implemented in 220 healthcare organisations from 18 EU members states and Norway
- 35 Exchange Mechanisms and 1409 participants

Work in progress:

Create a sustainable permanent European network on patient safety and quality of care

Patient Safety and Quality of Care Good Practices

Safe Clinical Practices for Implementation

PaSQ Exchange Mechanisms

Patient safety practices have been reported by professionals at local level while Quality of care good practices have been reported by EU Member States, Regions and PaSQ EU Stakeholders. All of these practices were reviewed twice, before their display, to ensure they included the appropriate information to facilitate their understanding and transferability.

The Good Practices contained herein should be considered within the context in which they have been implemented. If you consider to adopt some of these practices, please consider your

The Safe Clinical Practices (SCPs) are being implemented in Healthcare Organisations in Europe. The findings of a literature review and a survey of PaSQ National Contact Points resulted in a set of 4 SCPs for implementation. For each SCP a tool box has been developed.

Practices for Implementation

PaSQ Exchange Mechanisms are instruments (workshops, study tours, on-line courses, the PaSQ data base etc.) aiming for sharing, learning and exchanging information, knowledge, skills, and experiences across EU.

The events are based upon Good Practices to enhance quality of care and patient safety. You can read more about planned events and register here.

Euget Calandar

EPF's main contribution in the project:

- Glossary of terms: definitions that incorporate EPF's view on patient safety and quality of care.
- Good organisational practices (GOP) and patient safety practices (PSP) collection and evaluation for sharing.
- Developed the research for the evaluation of Safe Clinical Practices implementation, considering patient involvement.
- Analysis of patient involvement and patient empowerment as resulted from the submitted GOPs and PSPs
- EPF is part of the **network on patient safety and quality of care** consolidated in the project.

Joint Action CHRODIS

What it is about

- Co-funded by the Health Programme of the EU
- Duration 2014-2017(39M)
- 63 partners
- Objective: promote and facilitate a process of exchange and transfer of good practices between European countries and regions, addressing chronic conditions, with a specific focus on health promotion and prevention of chronic conditions, multi-morbidity and diabetes.

Priorities for 2015

- 2nd General Assembly in February
- Communication and dissemination: video aimed to raise awareness to be released in Fall 2015
- Consensus building process on patient empowerment interventions
- Training Programme for Healthcare providers (tentative)
- Outcomes from questionnaires on prevention and national diabetes plans

WE CARE

EPF European Patients Forum

What it is about

- Financed by the FP7
- Duration: 2013-2015 (24M)
- Multi-stakeholder partnership

- Objective: to suggest future health research and innovation that can contribute significantly towards a sustainable and affordable healthcare.
- Expected output: new Strategic plan and R&D Roadmap.

Priorities for 2015

- Final conference (14 and 15 April 2015)
- How we can still contribute to the design of the Strategic Plan and R&D Roadmap?

Survey to be launched in early June!
