

# Influencing national and EU policy-making through Partnerships & Alliances

Susanna Palkonen susanna.palkonen@efanet.org

### EFA 2015-2020

**Quality of CARE** 

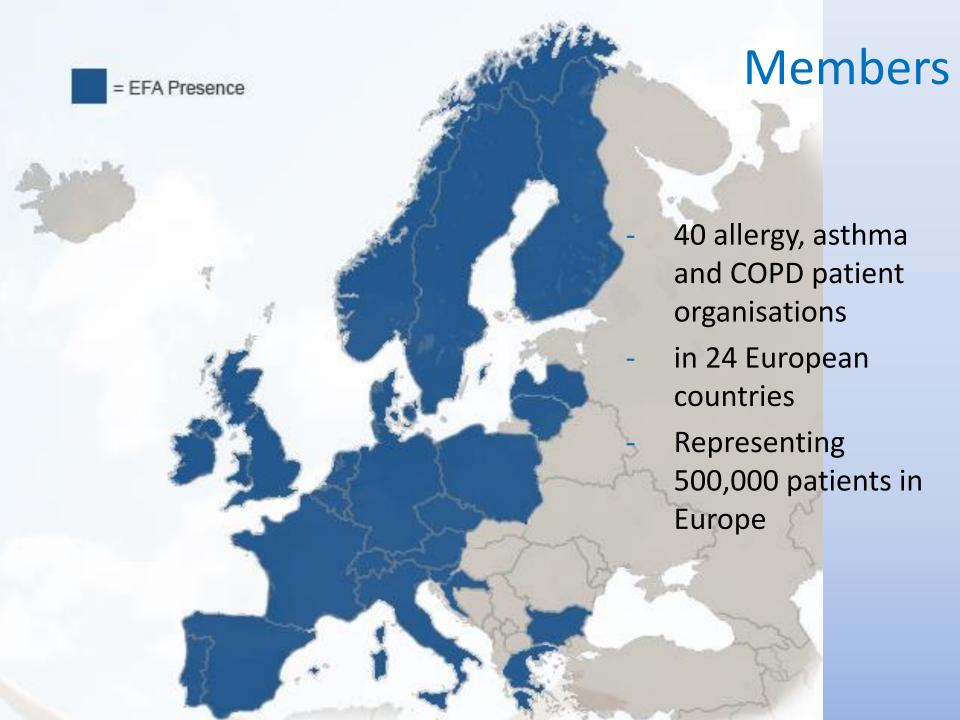

Patient PARTICIPATION

Europe where people with allergy, asthma and COPD;

- Have the right to the best quality of care and safe environment
- Live uncompromised lives
- Are actively involved in all decisions influencing their health

**INEQUALITIES** 

**HEALTH IN ALL POLICIES** 

- → Uniting patient groups at the EU level
- → Collaboration
- → Sharing knowledge & best practices
- → Capacity building
- → Tools/Facilitation for policy change

# Patient movement development

- More organised (one voice)
- Credible, Equal partner
- From followers to leaders, but in different stages across the EU
- Only possible when partnership building has been done
- Nordic associations: leaders, Europe needs you!

## Rationale for partnerships

- The whole chain of care patient centred work with all healthcare professionals (HCPs)
- Integration of prevention into care and all policies – work with environment/tobacco/health NGOs
- Ownership
- Maximise impact, but don't dilute patient perspective
- Let those lead whose core business its all about -> patients to lead on patient centred care!
- Patient groups together: strong voice, shared priorities

European Federation of Allergy and Airways Diseases Retients Associations

# **EFA Partnerships**

#### Care

- Health Care Prof Groups in allergy & respiratory
- Patient Groups

**Participation** 

- Patient Groups
- Research Community

EFA

Environment/
Risk factors

- Health & Environment Alliance
- European Network for Tobacco

# EFA Meet & Greet the EU Institutions Training 13-14th October 2014, Brussels

Health is a comptence of Member States. However, the European Union regulates on many aspects that impact patients lives, by setting standards and procedures that need to be applied in each of the 28 Member States. For this reason, EFA has been organising the "Meet and Greet" training on the EU institutions since 2007 as part of our strategy to involve members in the decision-making of EU policies. In the 2014 edition, 11 participants from 8 patients associations increased their knowledge on the latest developments in health policy at European level and unveiled the EU decision making process through a role play, where they experienced the medical devices regulation negotiations by putting in practice what they have learnt in theory. They also met with officials from the European Commission and presented their work to MEPs, obtaining key and direct contacts with their representatives at EU level. For more information on EFA's Meet and Greet the EU institutions training, visit www.efanet.org or contact policy@efanet.org

"EFA's Meet and Greet was a really engaging event and a great introduction to the EU institutions. I'm now much more confident about how to make sure people with asthma have their voices heard in Europe".

Emily, Asthma UK

"Education about patients' rights is a key element of continuous learning that parents of children with long-term conditions need to have. The insight I got from this training is a precious heritage that I will share with other parents. This training empowered me, thank you EFA for organising it!".

### **EPF**

- Our key partner:
  - Brings us together with other chronic disease patient groups
  - Leads on issues common to all patients and decided at EU level: Medical Devices and Clinical Trials legislations, Patient Safety....
  - Shares important policy developments
  - Provides easy opportunities for advocacy
  - Builds our capacity
  - Saves our resources

# EFA ational Alliances/Platforms of Patients

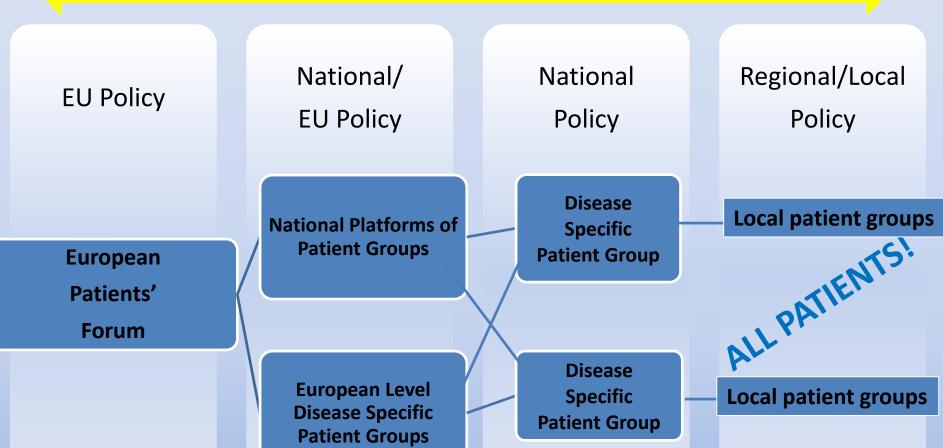

- Building one united patient voice
- Solidarity across diseases to achieve access to & quality of care
- Share common issues, concentrate on your disease specific issues
- When one patient voice is invited, all will be represented
  - Health care policy
  - Patient participation

European Federation of Allergy and Airways Diseases

# European 'Patients Policy'

UNIFIED MESSAGES – SOLIDARITY ACROSS DISEASES – PATIENT POWER

EU POLICY IN SUPPORT OF NATIONAL POLICY – NATIONAL POLICY INFORMING EU POLICY

# TACK - TAK - TAKK - ÞAKKA ÞÉR - KIITOS.
