ABOUT STYPA

PHASE 1

Introduction, **through a webinar**
with all accepted participants in
June 2022

STYPA is an exciting and unique opportunity offering a tailored high-quality course for **young patients or representatives of young patients**, providing the space to dive deeper into the delicate topic of **sexual health and well-being for young people with chronic conditions**. Some of the focus topics include:

- What is **the best way to talk to your healthcare provider, partner or potential partners** about your sexual health in regards to your chronic condition,
 - Familiarizing participants with the importance of **body positivity and self-image**,
 - Enhancing the confidence of the young patients to **change taboos and misperceptions** about young people with chronic conditions and sex.
- + Many other topics and workshops

PHASE 3

Three follow up workshop webinars, where the young patients will settle on key principles of communication on the topic, during September and October 2022

PHASE 4

Presenting the **key principles of communication on the sexual health and well-being of young patients** in a closing webinar, with various stakeholders, in November 2022.

PHASE 2

Face to face event in Strasbourg, France, on 14,15,16 and 17 July 2022. At this event the young patients will have the opportunity to openly discuss the topic, through workshops, presentations and interactive activities, guided by the STYPA trainers and EPF Staff.
